

Green Power Switch[®]

Like any revolutionary idea, the idea behind Green Power Switch is simple: harness the natural power of the wind, the sun and the earth to create an energy source that's useable in our everyday lives. TVA and local public power companies, working in cooperation with the environmental community, developed the Green Power Switch program as a way to bring clean, green power to the Tennessee Valley. But participation is strictly voluntary. Support for Green Power Switch comes directly from people like you. People who believe renewable energy has the power to change the world.

Since the launch of Green Power Switch on Earth Day 2000, thousands of residents of the Tennessee Valley have signed up for the program. Now it's your turn to add a little more momentum to the revolution.

Support Clean Energy

The Tennessee Valley Authority, Tennessee Renewable Energy and Economic Development Council, and your local power company are working together on the **Green Power Switch** — all we need is you!

Join thousands of others in the Tennessee Valley who have enrolled in Green Power Switch. Simply sign up online at www.greenpowerswitch.com/treedc or call **1-866-673-4340**.
